SAP is the world’s leading provider of business software and one of the key technology players in the world. For over 40 years, we have helped businesses run better through world-class business software applications that help invent, commercialize and mainstream the products and services of the global economy. More than 200,000 of the world’s best-run businesses are SAP customers!

Jordan is recognized as a fast-growing market for SAP. Due to this exponential growth, industry forecasts show that we need to grow the number of certified SAP consultants substantially over the coming years and Supply Chain Management and Finance are two of our most in-demand specialisms. This makes it the perfect time to take this training program and start your exciting career as a Certified SAP Consultant.

What the Program offers you:
- 3 month SAP training program at no cost to you;
- Hands-on simulated project exercises throughout the Program;
- Additional training on design thinking, presentation skills, communication skills and other soft skills;
- Access to internal SAP communities and networks throughout the Program;
- Official Associate Level SAP Certification in Finance or SCM – internationally recognized SAP qualification;
- Possibility of an internship in the SAP ecosystem after training, based on performance;
- Possibility of a permanent position in the SAP ecosystem after training / internship, based on performance;

What we require from a candidate:
- Candidates must have a home in or around Amman as travel / accommodation is not provided;
- Candidates must be Jordanian National;
- All candidates must also be currently unemployed;
- Candidates must be educated to at least Bachelor level in a field related to Finance, Supply Chain Management or another subject related to Business or Software;
- Candidates will preferably have graduated within the last 3 years with a GPA not less than 3.00 – proof of this may be requested;
- Candidates will preferably have a keen interest in starting an SAP-related career involving travel;
- The course will be delivered in English so a good grasp of both written and spoken English is essential;
- Candidates must possess good problem solving capabilities, presentation skills and a general understanding of Microsoft Office;
- The program will commence in August and availability from 9am – 6pm from Sunday - Thursday throughout the 3 month training period is essential – lateness and / or poor attendance is not tolerated.

What is the selection process?
If you meet the set criteria outlined above, you will be sent an e-mail to complete two online assessments – the first will test your analytical, quantitative, verbal and logic abilities. The second will assess your personality. If you perform well on the tests, you will then be invited back for a 30 minute interview.
